DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/3/06 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 29 and 67-106 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The formula: $F(x) = A + A_1x + A_2x^2 + A_3x^3 + A_4x^4 + A_5x^5 + A_6x^6$ in claim 29 represents broad general shape which can be modified to represent almost any shape, which renders the claim indefinite. From this equation one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states, "Whoever invents or discovers any new and useful process ... may obtain a patent therefor..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 29, 67, 68, 70, 71, 73, 74, 81, 91, 92, 94, 95, 96, and 97 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 2, 38, 39, 50, 124, 127, and 137 of copending Application No. 10/101,652. Although the conflicting claims are not identical, they are not patentably distinct from each other because the equation in claim 29 of the current application is so broad that it encompasses any generic shape, which is included by application 10/101,652.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented. (However, a notice of allowance for application 10/101,652 is being sent out)
